Summary

Dual-degree professional (BE + MBA) with front-end development expertise and experience serving high-profile clients such as HDFC Bank, Bhabha Atomic Research Centre, and Accenture. Skilled in creating high-performance landing pages, CMS platforms (AEM, WordPress, Drupal, Backbase), and modern JavaScript frameworks (React JS, Angular). Strong understanding of SEO, marketing operations, and bank/finance content. Proven ability to bridge the gap between technical execution and business strategy, making me well-suited for an Analyst or Associate Manager role. Seeking opportunities where technical, operational, and managerial skills can drive measurable impact.
